REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or fairly teach a grinding wheel or tool where an impermeable coating has been applied so as to cover the entirety of the core body of the tool so that a portion of the impermeable coating disposed on an outer circumferential surface of the body is interposed between the body and an abrasive layer. Applicant's admitted prior art teaches providing the claimed annular core body, but does not disclose coating the body with an impermeable coating. Asaeda et al, U5004446657A, discloses coating a grinding tool with an impermeable coating, but does not disclose that the coating is interposed between the body and an abrasive layer. Applicant's purpose is to prevent fluid from entering the body at any point, '657's purpose is to direct fluid through the body to a specific point of use. Newly cited Powers, 4,016,620 teaches providing an impermeable layer between an abrasive tool body and an abrasive layer, but does not cover the entirety of the body with the coating, see figures 1-4. '620 uses the fluid that permeates the body, entering from the front of the body, to apply pressure to the abrasive layer to abrade the interior of the fluid pipe.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to M Rachuba whose telephone number is 571-272-4493. The examiner can normally be reached on Monday-Fridays.
